PROFILE SUMMARY

Computer Engineering Gold Medalist with a passion for using technology to address inequities and educational challenges. Demonstrated commitment to academic excellence, peer mentorship, and developing accessible solutions for underserved communities. Driven by the conviction that engineering expertise carries the responsibility to serve society's most pressing needs.

EDUCATION

University of Engineering and Technology (UET) Lahore

Bachelors in Computer Engineering (CGPA: 3.9) Nov, 2021 – May, 2025

- Gold Medalist – awarded for achieving the highest CGPA in the graduating batch of Computer Engineering.
- Awarded merit scholarship for achieving the highest GPA in 6 out of 8 semesters.

Kinnaird College For Women Lahore

Intermediate in Computer Science Sep, 2019 – May, 2021

- Secured 100% marks in Intermediate; received a 4-year government scholarship as Punjab Board Topper.

PROFESSIONAL EXPERIENCE

Data Engineer May, 2026 – Present

Dubizzle Labs Lahore

- Design, optimize, and maintain robust data architectures and distributed streaming pipelines across marketplace platforms.
- Collaborate with engineering teams to streamline data accessibility and backend infrastructure performance scalability.

Data Engineer Sep, 2025 – April, 2026

RevCloud Lahore

- Developed and optimized scalable data pipelines using AWS services (S3, Glue, Redshift) for efficient data ingestion and transformation.
- Designed and executed ETL workflows with PySpark, and performed large-scale data analysis to deliver actionable business insights.

Software Engineer – Data Engineering June, 2025 – Sep, 2025

Techlogix Lahore

- Maintain and optimize data pipelines using SSIS for efficient data processing.
- Design and execute ETL workflows, and perform data analysis using Power BI to drive business insights and informed decision-making.

Intern - Data Engineering June, 2024 – May, 2025

Techlogix Lahore

- Identified data inconsistencies and resolved issues through effective use of CRUD operations in PostgreSQL for data validation and correction.

Assistant .NET Programmer May, 2023 – May, 2024

Camco Mfg Remote

- Debugged and resolved errors in .NET applications using C# and optimized complex SQL Server queries to improve efficiency and performance in database-driven applications.

Taleem Mumkin Platinum - IT Fellowship March, 2022 – March, 2023

Qasim Ali Shah Foundation Lahore

- Participated in a year-long fellowship focused on personal and professional development through soft skills sessions and interactive activities; recognized as an outstanding student among fellows.
- Attended hands-on labs on android development, supervised by senior Android developers from Hazel Mobile.

LEADERSHIP, MENTORSHIP & SOCIAL IMPACT

Marketing Lead | *Notion Lahore* Jan, 2024 – Present

- Led marketing initiatives while mentoring team members in digital marketing strategies and professional development.

Project Coordinator | *ACM UET Chapter* Mar, 2024 – Feb 2025

- Initiated and built Career Insights community group, growing membership to 2000+ students by facilitating access to internship and job opportunities.

Lead – Outreach Team | *GDSC UET* Aug, 2023 – July, 2024

- Expanded Google Developer Student Club reach by designing inclusive outreach strategies that increased diverse student participation in tech workshops and coding bootcamps.

Campus Ambassador | *Devsinc* Nov, 2022 – July, 2024

- Bridged the gap between industry and academia by facilitating student access to professional development opportunities, internship programs, and industry mentorship connections.

RESEARCH & INNOVATION

Personalized Smart PhysioCycle (FYP) | *ML, SQL Server, Python, Flutter* July 2024 – May 2025

- Led the entire project to develop an accessible, low-cost physiotherapy assessment system addressing healthcare inequities in elderly patients with Knee Osteoarthritis.
- Independently developed a cross-platform Flutter application and connected it with a Flask backend to provide personalized rehabilitation feedback and progress tracking.
- Assisted teammates in integrating IMU, FSR sensors, and Fitbit API with ESP32 for real-time cycling data acquisition and mobility assessment.
- Research paper based on the project is currently in progress.

CERTIFICATIONS

IELTS Academic | *Overall Band Score: 7.5* 2025

Berlitz English and Basic Business Ethics | *Berlitz* 2024

TECHNICAL EXPERTISE

Analytical Tools: SQL, Python, Power BI, PySpark

Frameworks & Platforms: AWS (Glue, S3, Athena), Flask, .NET

Databases: SQL Server, PostgreSQL

Core Skills: Strategic Problem-Solving, Process Optimization, Cross-functional Collaboration

ATHLETICS & STUDENT ENGAGEMENT

Excellence Through Discipline & Teamwork

- Badminton – Two consecutive departmental championships (2023–2024) while maintaining 3.9+ CGPA, demonstrating sustained excellence under pressure and commitment to multiple pursuits.
- Basketball – Contributing member of Inter-College championship team (2020), developing collaborative leadership skills and strategic thinking in high-pressure competitive environments.
- Actively participated in and took initiative for intra-departmental activities, including organizing welcome events, cultural days, and other student engagements, fostering teamwork, community spirit, and organizational skills.
